

Daily Chronicle

FRIDAY, NOV. 22, 1878.

PENCILLETES

City Council to-night.
Chattanooga's municipal election came off yesterday.

Gloomy, rainy and extremely disagreeable weather yesterday.

The days of the fat Thanksgiving turkey begin to be numbered, and few in number, at that.

The first church erected in Nashville was a Methodist Church and was put up in 1796, so says the *Banner*.

Next Wednesday is the day of the meeting in this city of the stockholders of the E. T. & G. Railroad.

The show windows begin already to put on a beautiful appearance as they begin to be bedecked with Christmas and holiday goods.

A number of young gentlemen are arranging for a select parlor dance to be given next Tuesday evening at the Franklin House. A splendid social affair may be expected.

The Jonesboro' Journal rather intimates in a roundabout way that Congressman Bob Taylor is about to get married to a lady in the old North State. Good for Bob.

The Jonesboro' Journal wants Dr. Mahoney, Representative from Washington county in the next Legislature, to make an effort for the introduction of the whipping-post in this State.

Maryville Index: Mr. Nathan Sparks, of Cade's Cove, Blount county, caught three bears last Saturday in his traps. During the last three days of the week, besides the bears, five coons were caught by him.

The Memphis papers announce that the public schools in that city will be re-opened about the 1st of December. Another evidence of the commendable rapidity with which Memphis is getting at herself again.

Our corporations abolished, our educational institutions chartered, and the Sheriff and constables made to understand that they are peace officers and bound to preserve order, would prove a great benefit to Jonesboro', modestly suggests the *Journal*.

Says the Jonesboro' Journal: H. H. Ingersoll, Esq., a gentleman well and favorably known in this community, has made arrangements to remove his family from Greenville to Knoxville. In his departure our sister town loses a valuable citizen.

Nashville Banner: White people first settled on the present site of Nashville in the winter of 1773. It is said that that winter was one of the coldest ever experienced in this country. And, by the by, this calls to mind the fact that this is our centennial. Shall we celebrate?

According to the *Index*, Dr. A. Arberry, one of the family of Arabians who recently settled at Maryville, performed a difficult and successful surgical operation on a son of John Mitchell, in that county, last week, taking off the right leg above the knee. The operation was witnessed by a number of physicians.

Nashville American of Wednesday: Hang a letter from Otis Brown, of Portland, Me., in which he states that a committee had left that city for an inspection tour over the table lands of Tennessee for twenty persons of means who wish to settle in this State—to get in a balmy and more healthful climate. They want to settle near good water power, in an agricultural region, in close proximity to a railroad.

Apple Butter at 10 cents per pound, at John Hudiburg's.

A Card.
Dr. R. V. Pierce, of Buffalo, N. Y., the proprietor of Dr. Pierce's Family Medicine, and also of the Invalids' and Tourists' Hotel of that city, has recently been elected to Congress by the very flattering majority of nearly 3,000. He has already served his constituency as State Senator, and his renewed endorsement signifies that his services have been highly satisfactory. His extensive practice in the treatment of Chronic Diseases will not, we are informed, be neglected or suffer in the least when time arrives for him to take his seat in Congress, it being intrusted to his brother and other experienced medical gentlemen who have long been associated with the Doctor in the Medical Department of his celebrated World's Dispensary and Invalids' Hotel. Besides, as the Forty-sixth Congress does not convene until December, 1879, Dr. Pierce's patients will not lose his personal attention for some months yet.

Sponge Cake.
Two cups of sugar, two cups of flour, four eggs, two-thirds of a cup of warm water, two teaspoons of Dooley's Yeast Powder, one teaspoon of flavoring. Mix the powder with the flour while dry.

Neil Bryant to Jail.
From a Buffalo, N. Y., paper we notice that Neil Bryant, the famous negro minstrel, who it will be remembered was along this way with his troupe last winter, is now, or was a few days ago, a prisoner in the Erie county jail. He was not charged with any crime, but his incarceration was due to the fact that he was unable to pay a debt, which he claims he is not justly responsible for. The claim was that of Lew Benedict for salary as a member of Bryant's troupe some years ago. It amounts to \$1,000, interest and all, and was assigned to Lew's brother, who prosecuted it and obtained judgment against Bryant. He insisted the claim was not valid and went to jail because he did not promptly satisfy it.

Jo. McTeer has just received a full line of Underwear, White Shirts, Night Shirts, Gloves, &c. nov21dtf

From Yesterday's Second Edition.

Second Night of the Loan Exhibition.
A good attendance was attracted again last night to examine the many valuable and interesting collections of art, relics of antiquity, etc., gathered together at the loan exhibition given by the ladies of St. John's Church to raise money for furnishing their church with a carpet, and the evening was very pleasantly spent.

There have been a number of additions since the first night, many of them very interesting indeed. Prominent among these new additions was a very antiquated portrait of Moses together with the fifth chapter of the book of Moses in the Hebrew language. This is the property of Mr. A. Lobenstein, and attracted as much attention as anything in the exhibition. Mr. Lobenstein contributed also a number of other interesting relics.

Another very valuable and attractive collection of antiquities was furnished by Prof. W. G. McAdoo from his large store of articles of this kind. They formed an interesting study. In the art department, Col. S. H. Lockett deserves special mention for the very large collection furnished from his art studio, most of them the work of his own hands, and very fine indeed. Others were furnished by Messrs. Mead, Goodrich, and others, altogether making a collection of art rarely to be excelled. The whole exhibition, for the time in which it was gotten up, is indeed excellent, and has but to be seen to be appreciated. We are confident that if our readers knew what was to be seen they would not allow the opportunity to slip.

The festival department was again in full blast, and was liberally patronized. The ladies have concluded to open the exhibition again at 10 o'clock this morning and again to-night, and if the attendance warrants every day and night during the week. The festival feature will not be kept up, but some refreshments, ice cream, etc., can be had at any time to order. We hope to see a continuation and an increase in the patronage.

An entirely new feature, of unequalled interest and attractiveness will be added to-night. Come and see.

The Public Library.
The lecture to-night for the benefit of the city library and reading room, is by one of our most interesting and gifted speakers, Dr. E. S. Joyner. Let all turn out and hear him. This is the first of a course of lectures. He will be followed by others from time to time.

I know whereof I speak when I say that unless the good citizens of Knoxville encourage these lectures the library and reading room must be closed. The ordinary receipts are less than the necessary expenses. The expenses for room rent, fuel, gas, books, magazines, newspapers, printing and salary of librarian will nearly reach \$500. Receipts about \$300. A very small sum from our good citizens annually will save the library and enlarge its usefulness. We need two hundred new members, who will come forward, and aid in keeping up this noble institution? What citizen is willing to see it fail? To avoid this, let our citizens become members, and let them attend the lectures.

Until this year the Board of Trade has paid the room rent; now it has fallen on the Library Association. It must have help, or it will go down. I appeal to a generous public for help. I appeal to the friends of morality and religion and temperance to aid in keeping open a place where the young men can spend their evenings, instead of being tempted into worse places. On this last ground I appeal to all parents. I appeal to the young men and to mechanics, who are too poor to purchase books and newspapers, to aid in keeping up a public library, open night and day to all.

Personal.
Mr. J. T. Hough and wife left yesterday for a visit to relatives and friends in Ohio.

Miss Bertha Saltmarsh, daughter of Dr. S. Saltmarsh, left yesterday, returning to Cincinnati to resume her art studies, after spending several weeks at home.

Mr. Joshua DePue and wife, of Ohio, father and mother of our enterprising townsman, C. W. DePue, arrived in the city yesterday, and will make this their home. With them also came Mr. Granville Umensetter and family, on a visit.

Mr. Jas. R. Ogden returned Wednesday night from a trip to Memphis, on railroad business.

Hon. Alex. Reagan, of Cosby, Cooke county, was in the city and made us a call last night.

Y. M. C. A. Notes.
The Young Men's Christian Association of East Tennessee University held their monthly meeting in their rooms yesterday evening, at which the following reports were made of the month's work:
Number of devotional meeting held in rooms, 7. Number of devotional meetings held outside of the rooms, 7. Total attendance, 187. Estimated attendance at rooms, not including attendance at devotional meetings, 225. Number of members received, 7. Number of members withdrawn, 1. Number of names proposed for membership, 2. Present membership, 27. J. H. Cowan was elected Vice President vice Jno. M. Allen resigned and W. L. Bullock, Secretary.

Mr. L. D. Wishard, College Secretary, writes that the Tennessee college work is better organized than that of any other State, there being at present some ten college associations in Tennessee.

That Belled Buzzard.
The buzzard with a bell around its neck, which was mentioned by us the other day as having been seen in this county, seems to be the same bird, as we notice in the Nashville American, which was seen frequently at Brownsville, Tenn., during the yellow fever epidemic, flying over the town ringing its bell, which it was supposed some mischievous persons had put on

it. It created much consternation among superstitious people there.

Married.
At New Market, Ala., Tuesday evening, Nov. 19th, Mr. F. B. Cooley, of this city, and Miss Bettie Carmichael, of Ala. The newly wedded couple arrived here on last night's train and were met and congratulated by many friends.

ANNOUNCEMENT.
We are authorized and requested to announce the name of S. B. LUTTRELL as candidate for Mayor at the ensuing January election.

CITY ITEMS.
THE LOAN EXHIBITION.
Open from 2 o'clock p. m. Until 11 o'clock To-Night.

Annual Convention of Stockholders
Postponed Until Wednesday, November 27th, 1878.

OFFICE OF EAST TENNESSEE, VIRGINIA & GEORGIA R.R. COMPANY, Knoxville, Tenn., Oct. 31, 1878.
At the request of many of the largest stockholders residing beyond the limits of the State, who can not safely reach Knoxville in consequence of the prevalence of yellow fever at other points, and in view of the fact, that it is always desirable to have as large an attendance of stockholders as possible it is deemed proper, to postpone the regular meeting called for the 9th inst., until Wednesday, November 27th, 1878. JAMES G. MITCHELL, Secretary and Treasurer.

We will to Merchants duplicate any EASTERN BILL. Save Time and Expense.

JOS. T. McTEER,
148 Gay St.

ANSWER.
THE REASON WHY
BLACK
DIAMOND
COAL.

Is sold 500 miles from Coal Creek is easily answered by those who have used it.

In the first place, it is very rich in heating qualities, and at the same time hard and clean. To heat a room of a given size will, of course, require a certain amount of carbon; now, if you have a pure coal like the Black Diamond, the room will be warm and comfortable with the least amount of coal, while if the coal is of a poor quality it will take from fifty to one hundred per cent. more to give out the same heat, thereby materially increasing the cost of your fuel.

This is the reason why this coal is shipped 500 miles or more, coming directly in contact with coals that are within five or ten miles of the cities and towns where the Black Diamond is sold.
